

Dear Sirs:

I respectfully urge you to reject the National Association of Broadcasters petition 04-160 that seeks to stop XM Radio from providing XM Instant Traffic and Weather. I personally benefit from listening to XM Satellite Radio with their traffic and weather channels, as well as the variety of other channels which they offer. I pay for their service, in fact I have paid for service on two XM receivers for the next five years, and I want to be able to listen to all of the channels that they offer. I do not want the National Association of Broadcasters to be able to dictate what I can hear on a service that I pay for.

Sincerely,
Dana Hayes
XM Radio Listener
